

# DGR-PRC Candidate Success Story

## Candidate's Story

I am VBVN Jagadeesh Prasad, a retired Indian Air Force personnel. After completing my service in the Air Force, I aimed to strengthen my existing livelihood and build a sustainable post-retirement career.

To enhance my managerial and operational skills, I successfully completed the **DGR-PRC course in Warehouse Supervisor** at the **Institute of Entrepreneurship Development Project Office, Shimla**, from **June 10, 2024, to September 13, 2024**. The course provided practical knowledge in inventory management, storage systems, supervision techniques, and business operations through expert lectures and hands-on guidance.

Before attending the course, I was already running a small **grocery shop in Hyderabad**. The training helped me improve stock management, procurement planning, and overall business efficiency. With the knowledge gained from the course, I was able to **expand and scale up my grocery business** successfully.

At present, my expanded grocery shop generates an annual income of approximately **Rs 6 lakh**, providing financial stability and growth in my post-retirement life. This progress has given me confidence to further strengthen my business in the coming years.

I sincerely thank the **Institute of Entrepreneurship Development Project Office, Shimla**, and the **DGR-PRC team** for providing this valuable training. The course played a significant role in helping me expand my existing business and achieve economic self-reliance after retirement.
